

Contract Overview

Market your grain through Northern Country and deliver to the end user (ethanol plant, feed mill, soybean crush facility) of your choice. Producer sells grain to Northern Country, with a direct ship delivery location, at a direct ship bid. The producer will deliver their grain to the direct ship location under a Northern Country contract.

Contract Specifics

- No bushel minimum/increments
- Must arrange with NCC prior to delivery

Potential Advantages

- Stronger bids while still supporting your coop
- Option to flex HTA contracts to direct ship locations

Potential Disadvantages

- Could experience long wait times at end users
- Subject to end users' space availability and discount schedules
- Bushels are not eligible for NCC patronage
